

Hydraulic Fixture Clamping SCPU

• Parts shown as clamped

- SCPU = Self-Contained Power Unit
- *Patent Pending* system where the machine tool spindle powers the hydraulics
 - Quicker Cycle Times
 - Clamp parts using the spindle
 - Unclamp with the push button release
- Benefits:
 - Consistent Clamping Forces Every Cycle
 - Operator Independent
 - No more torque wrenches
 - No more hydraulic hoses to connect
 - Error proofed. Part of machine cycle
 - Reliable and robust for the long-term
 - Ingested contamination is near zero = long hydraulic component life
